PROFILE

> Have strong passion for both front end and back end systems. Familiar with modern development practices such as OOP, Agile Development, MVC frameworks, and RESTful API. Always willing to learn in all aspects of life knowledge, not just in development. My personal policy is to work hard, smart, and not afraid of challenges. My development motto is grow, conceptualize, develop, and exceed.

EXPERIENCES

AUG 2020

LEE'S ELECTRONIC COMPONENTS
FULL STACK PHP DEVELOPER

Proposed and created a web-based business operation system using Laravel, PHP, HTML, CSS, JavaScript, and Bootstrap to assist with data management, searching, inventory management, and financial statistics. As a result, purchasing time can be reduced by up to 33% and inventory accuracy are increased by 25%.

Manipulated DOM with ReactJS in Laravel framework to handle interactive UI/UX and APIs.

Designed MySQL table schemas with validation, migration, and seeding to ensure that the tables only contains necessary data to perform efficient query. Used caching on expensive queries. As a result reduced the time it takes to perform search by up to 15%.

MAR 2018

LEE'S ELECTRONIC COMPONENTS
SALES OPERATION SUPERVISOR

Hired and trained co-op students for better work performance and maintaining customer relationship. As a result, maintaining 4.5 stars review on Google and Facebook.

JUL 2017

PROJECTS

RFID EMPLOYEE TIME LOGGING SYSTEM   DEC 2019 - MAR 2020
PERSONAL PROJECT, LEE'S ELECTRONIC COMPONENTS

Utilized Raspberry Pi 4 embedded programming RFID capabilities, and Python to create a system to log employee's log in and out time.

ANDROID MOBILE SHOPPING APP   DEC 2016 - FEB 2017
PERSONAL PROJECT, LEE'S ELECTRONIC COMPONENTS

Created an android app using Android Studio and Java to create a mobile purchasing platform for customer's convenience of purchase.

EDUCATION

BSc. COMPUTING SCIENCE   MAY 2013 - SEPT 2016
SIMON FRASER UNIVERSITY, BURNABY, B.C., CANADA
